

BE-ARMA webinar – AI and ethics in Horizon Europe

Dr. Mihalis Kritikos, a policy analyst on the ethics of Artificial intelligence at the **Ethics and Research Integrity Sector of the European Commission**, will shed a light on the EU's approach towards Artificial intelligence and the efforts of the EU's Ethics Appraisal mechanism to create a supportive and guiding framework for the research ecosystem.

The webinar is organized by [BE-ARMA](#) and will take place on **15 April from 12:30 till 13:30**.

There will be enough time for your questions towards the speaker and/or the audience regarding Artificial Intelligence or ethics appraisal in general.

There is no need to register, simply join the webinar by [clicking on this TEAMS link](#). The session will be recorded and shared afterwards.

Feel free to dispatch this invitation further.
