Coffee talk 2-factor Authentication

Tuesday 10 June
11h00 – 12h00

In the coming months the authentication process on the Funding&Tender Portal of the European Commission will change: **second authentication** apart from your password will become compulsory.

BE-ARMA organises an **online coffee-talk** where you can **exchange with peers** about this challenge: discussing the solutions you are considering, sharing the changes that you already have made or the ideas you have.

The link to join the webinar is published on the BE-ARMA teams. If you are not yet a member, please follow the instructions on bearma.be/#membership
